

7th National Seminar
2018

Contemplations on
'Contribution of
Ancient India
Scientific
Temperament to
Modern
Sciences'

COLLEGE OF BUSINESS STUDIES

On Friday 16th & Saturday 17th February, 2018

Venue:

JP Auditorium, University Campus, Khandari
Dr. B.R. Ambedkar University, Agra

THEME OF NATIONAL SEMINAR 2018

Ancient India was land of sages, scholars and scientists. Science and technology in ancient India and medieval India encompassed all the domains of human knowledge and activities, including Mathematics where Vedic literature abounds with concept of zero, techniques of algebra and algorithm, square root (between 1000BC and 1000 AD), Aryabhatta (5th century), Bhaskaracharya (12th century), Astronomical propositions as scripted in Rig Veda (2000 BC), Concept of atom and theory of relativity explicitly propounded around 600 BC, Medical Sciences and Surgery in Sushruta samhita and Shatrakrama in 800 BC, Heliocentric theory by Aryabhatta (5th century), Binary Numbers in book Chandahs'āstra and Fibbonacci numbers as given in ma~tra~meru both by Pingala, Urban Planning of Mohenjodaro and Harappa, and numerous other ancient scriptures which echos the scale of advancements in India's science and technology.

The purpose of this seminar is to confluence unexplored golden treasure of ancient India wisdom and sciences with modern sciences and its contemporary applications. The deliberations in this seminar will Inspire students to explore the yet concealed scientific treasure and wisdom in the ancient Indian scriptures for reconnoitering their contribution to modern scientific disciplines. This seminar aims at bringing back to life the lost faith of academia, innovators, researchers and scientist, in India's scientific culture and heritage by disseminating knowledge about the unimaginable advancements of India's ancient science and technology that modern science cannot foresee and till date only is simply rediscovering what was known to us 5000 B.C. ago.
